

# Skills Training UK

## APPRENTICESHIP ACADEMY

BUSINESS, INDUSTRY & TECHNOLOGY

## Do you want to work in social media, digital marketing or information technology?

Our Apprenticeship Academy provides a first class learning environment at the University of Wolverhampton Science Park and we have a wide range of employers looking to recruit people like you.

You could start your career with one of our Advanced Apprenticeships in Social Media and Digital Marketing or IT, Software, Web & Telecoms Professionals.

Or you could make sure you are work and interview ready by joining our Fast Track programme. ***See over for more information!***

# Your first step on the career ladder...

**Fast Track** will equip you with essential IT and employability skills that every employer wants. You will work on your CV, practise interviews, gain an IT qualification and improve your English and maths if you need to. Fast Track includes 5 weeks of learning and up to 3 weeks of vital work experience. Attending this course means you get immediate access to all new Apprenticeship vacancies available at the Academy.

The **Advanced Apprenticeship in Social Media and Digital Marketing** will train you to be a social media or digital marketing assistant working for a business or marketing agency. You will train at the Academy for up to two days every month for 12 months and spend the rest of the time within the workplace as a paid employee.

The **Advanced Apprenticeship in IT, Software, Web and Telecoms** will prepare you for roles such as network engineer, web developer, software developer, IT technical support or IT helpdesk. You will train at the Academy for up to 10 training weeks during the 12 month Apprenticeship, with the remaining time applying the skills you learn as a paid employee in the workplace.
